

Teacher Regina

Aside from teaching the children, I too, have so much to learn from them about theatre.

Our dramatic Teacher Regina has been performing since she was a child, starting off training in Classical Ballet under the Royal Academy of Dance. She has never stopped honing her performing skills, and developing artistically. Today, she acts, dances, sings, writes, and plays multiple instruments. Born in Singapore, Teacher Regina has travelled, trained, and worked in multiple countries and cultures. All these experiences have acquainted her with different ways of thinking, being, and living, and have shaped her perspective on theatre and art. While in the UK, Teacher Regina had extensive experience teaching children and teenagers, and fell in love with the endless imagination children have, and seeing them benefiting from theatre, developing into confident little boys and girls!
